WORK EXPERIENCE

Senior Data Engineer

Nearform

📅 From 02/2026

📍 Tramore, IE / Milano, IT

- I am assisting clients in building modern, scalable Databricks platforms with solid CI/CD foundations – ready for AI integration from day one, and accelerated by AI-native developer tools to ship faster. DBT and Databricks apps are part of the stack.

Senior Data Engineer ← Data Engineer

TrueLayer

📅 02/2022 - 01/2026

📍 London, UK / Milano, IT

- I developed and managed data pipelines aggregating information from microservices databases, queues, third-party APIs and Elastic Search, organizing it in S3 (Parquet/Iceberg format). Data is processed using **Spark** on **EMR** and queried via Athena, orchestrated through **Airflow** DAGs or **Kubernetes** microservices.
- As a Senior Data Engineer (a role to which I was promoted in February 2023), I designed and implemented a new data platform from the ground up, automating Aurora cluster snapshots and their load into **Redshift** through **ECS** tasks, **Glue**, and Step Functions, with data models managed via **DBT**. All infrastructure provisioned using **Terraform**.

Big Data Engineering Junior Specialist

Illimity

📅 05/2020 - 02/2022

📍 Milano, IT

- I contributed to the development and maintenance of Illimity's data streams within an Azure-based IT architecture. The data streams were built using **Databricks**, **Data Factory**, **Delta Lake**, and **MongoDB**, with all workflows managed through Azure DevOps

Doctoral Student

Max Planck Institute for the Structure and Dynamics of Matter

📅 09/2019 - 04/2020

📍 Hamburg, Germany

- I participated in the theoretical and computational analysis of RIXS cross-sections, utilizing software for conducting advanced simulations of realistic condensed matter systems.

KEY SKILLS

Main Stack

- Spark, Airflow, Iceberg, DBT, Databricks, Terraform, Kubernetes, LangGraph, SDD

AWS Tools

- EMR, Redshift, Athena, Glue, EC2, ECS, Lambda, Step Functions, Redshift, RabbitMQ, Step Functions, EKS, s3

Microsoft Azure Tools

- Data Factory, DataLake, Purview, Synapse, MongoDB

EDUCATION

Master's Degree in Physics Engineering

Politecnico di Milano

📅 02/2017 - 04/2019

📍 Milano (MI), IT

- Nanophysics and Nanotechnology
- Final Grade: 108/110

Bachelor's Degree in Physics Engineering

Politecnico di Milano

📅 10/2013 - 02/2017

📍 Milano (MI), IT

- Final Grade: 91/110

PUBLICATIONS

Determining the Electron-Phonon Coupling in Superconducting Cuprates by Resonant Inelastic X-ray Scattering: Methods and Results on

$Nd_{1+x}Ba_{2x}Cu_3O_{7\delta}$

Politecnico di Milano

📅 2017

📍 <https://arxiv.org/abs/1906.01270>

- In high critical temperature superconductors the actual role of electron-phonon coupling (EPC) investigated.
